

ROS supported languages

- official focus: Python v2 and C++
- `rosjava`: experimental, has Android support
- IPC-bridge: MATLAB binding
- extract data in MATLAB-friendly format:
`rosviz` `recording` + `topics_to_ssv` script
<http://goo.gl/nA6om>

ROS graphical tools

- `rxgraph`: live graph of running processes and connections

ROS graphical tools

- `rxplot`: visualize data published on topics
